PROJECTS

Real Time Chat Web Application
ReactJS, MUI v5, NodeJS, ExpressJS, MongoDB, AWS, Redux, Socket.io

charcha.us

Features :

- Real-time messaging with WebSocket technology.
- Audio call and Video call.
- Group and private chat functionality.
- AWS integration for scalability and storage.
- Message history and notifications.
- Emojis and multimedia support.

Youtube Clone
ReactOS, NodeJS, ExpressJS, MongoDB, Redux, JWT, Cookies, RestAPI

link

Features :

- User authentication with JWT and cookies.
- Video upload and playback.
- Comments, likes, and subscriptions.
- Responsive design with ReactJS.
- Search, discovery, and recommendation.
- Somal daring and anayiesaniegration.

CERTIFICATION

Full-Stack Development

"Proficiency in full-stack development showcased through robust project delivery and versatile technical skills. Committed to continuous learning and innovation in Maan's development endeavors."

Blockchain Development

"Proficiency in blockchain development showcased through successful project implementation and versatile technical skills. Demonstrated expertise in creating secure, scalable, and efficient decentralized applications. Committed to continuous learning and innovation in blockchain technology."

STRENGTH

Team collaboration

"Expert in fostering team collaboration for success."

"Skilled in driving teamwork for results."

Problem Solving

Innovative approach to challenges.

"Proactive problem solver, delivering results.
